CREATE A PARK

KanQuiz

The Kananaskis Questionnaire

This survey is intended to provide Kananaskis with meaningful public input from kids, parents outdoors people, nature lovers - anyone who has ever visited Kananaskis. We'd also like to hear from business people who rely on Kananaskis for income.

We'd like to know how you feel about Kananaskis - what kind of relationship you have with this special place. You might say your family learned a life-lesson there. You might have drawn strength and determination from an adventure in the wilderness. We learn, grow, get fit, decompress and draw sustenance from Kananaskis and it only takes 1/2-hour to get there from Calgary. That's pretty special, and we want the K-Country administration to know who goes there, what they do there and why.

We'll publish your input on our web site and we'll use it to encourage outdoor and environmental interest groups as well as related businesses to support our campaign to create a park in Kananaskis.

IMPORTANT! This quiz was prepared by [the Save Kananaskis group](#). The part titled "K-Country Administration Questionnaire" contains questions from their survey form, but we've interpreted them to make them easier to understand. When you submit this form, a copy will be sent to Kananaskis and to us. **The deadline for K-Country is January 15, 2008**, but we'll accept your quiz anytime. You can find the official K-Country survey here: <http://www.savekananaskis.ca/pdf/kcquest.pdf>.

All entries are optional (except the captcha send function). Please keep each line entry to 60 characters and each box entry to 255 characters. If you want to write more, please e-mail [info\(at\)savekananaskis.ca](mailto:info(at)savekananaskis.ca). It will take about 20 minutes to write brief answers. There's no time limit to submit the quiz.

What shouldn't be there?

What's broken? How can it be fixed?

What's most important? nature conservation recreation resource development

agriculture all of the above

What's it worth?

Do you depend on Kananaskis for income? Earn income No income

Do you derive value from?

- the earth, air and water
- tourism
- recreation

K-Country Administration Questionnaire

The Kananaskis administration (Alberta Tourism, Parks, Recreation and Culture) asked for input on Provincial Recreation Areas in Northeastern Kananaskis and Bragg Creek Provincial Park only. Alberta Sustainable Resource Development has authority over the rest of the Sheep, Elbow and Sibbald districts. They're not asking for your input, but we'd like you to consider the entire area when answering these questions.

What is the best way to ensure a diverse and healthy environment for plants and animals?

The Elbow and Bow Rivers supply Calgary's water. What should we do to ensure the quality and quantity of water?

What can be done to make your time in Kananaskis more rewarding - events, activities, information, guides, tours, etc.

Who should have access, to do what? Is the multi-use policy working?

Do we need new and/or better recreation facilities? What?

Are you concerned about your safety or the impact of industrial/agricultural activities?

What is the role of First Nations in Kananaskis?

How important is the visual appeal of Kananaskis?

The forest is important for the health an appeal of Kananaskis. Is it being managed well?

Ranchers use Kananaskis to graze cattle. Is that a problem or benefit?

Do we need to know more about the area? About what; ecology, tourism, industry, agriculture?

Fishing and hunting is restricted in some areas. Is this good or bad?

Some special events are restricted. Should there be more or less access for large groups and commercial operators?

Is it time to change boundaries and jurisdiction? How?

Should we protect cultural, historical, palaeontological resources?

What new facilities and/or programs are needed?
